.....

It is an offence under *The Securities Act* to file a false or misleading report.

Instructions:

1. File two signed copies of the report with the Ontario Securities Commission, as and when provided by subsection 3 of section 110 of the Act.
2. File a separate report with respect to each corporation of which you are an insider.

3. Indicate in what capacity you qualify as an insider, for example, "director", "senior officer", "beneficial owner of such number of shares as carry more than 10 per cent of the votes attached to all equity shares of the corporation". If you qualify in more than one capacity, so state. In connection with the meaning of the word "insider", see subsections 2 to 7 of section 1 and section 109 of the Act.

4. State all changes in your beneficial ownership of, or control or direction over, capital securities of the corporation during the calendar month for which you are reporting and also your beneficial ownership of or control or direction over capital securities as of the end of the month. Report every transaction involving a change in your beneficial ownership of, or change in control or direction over, capital securities during the month even though purchases and sales or other changes during the month are equal or the change involves only the nature of ownership, for example, from direct to indirect ownership.
5. Under "Designation of Security", identify each class of capital security beneficially owned, or over which control or direction is exercised, for example, "Common shares", "First preference shares", "5% Debentures due 1975", etc.
6. Show the date (day, month and year) of each security transaction opposite the amount or number of securities involved in the transaction and the price per unit or share at which the capital securities were sold or purchased.
7. In reporting the amount or number of capital securities acquired, beneficially owned or over which control or direction may be exercised, in the case of debt securities give the principal amount thereof and in the case of shares give the numbers thereof.
8. Under "Nature of Ownership" state whether and to what extent your beneficial ownership of capital securities is direct or indirect. To the extent your ownership is indirect indicate in a footnote or some other appropriate manner the name or identity of the medium through which such capital securities are indirectly owned and state the amount and number so owned by each such medium. Report capital securities owned indirectly on separate lines from capital securities owned directly. State also whether you may exercise control or direction over capital securities and report the amount or number on a separate line. To the extent that you exercise control or direction over capital securities indicate the means by which such control or direction may be exercised and state the amount or number of the capital securities.
9. If you acquired from or sold to the corporation of which you are an insider any of its capital securities so state. If the acquisition of securities was through the exercise of an option, so state and give the price per share or unit paid. If any purchase

or sale was effected otherwise than in the open market, so state giving particulars. If the transaction was not a purchase or sale, indicate its character, for example "gift", "stock dividend", etc., as the case may be. (This information may be set out in item 8 of this Form).

10. You may include any additional information or explanation that you deem relevant.
11. If the report is filed on behalf of a company, partnership, trust or other entity, the name of the company or other entity shall appear in printed form and the name and office of the signee shall be in printed form immediately following the signature and there shall be filed with the Commission a certified copy of the resolution or by-law authorizing such person or persons to file and the resolution or by-law shall show all directors and officers present when the resolution or by-law was authorized. If the report is filed by an individual it shall be signed by him; if signed on his behalf by an agent, there shall be filed with the Commission a duly completed power of attorney.
12. If space provided in any item is insufficient, additional sheets may be used and must be cross-referred to the item and properly identified and signed.

The following suggestions may be of some assistance to those reporting insider transactions:

- (a) The Commission staff are not permitted to correct, delete or add to a report. Therefore, ALL paragraphs should be completed.
- (b) One should make certain that the amounts are consistent with the information given in previous reports.
- (c) Two signed copies are required to be filed.
- (d) The Commission staff would prefer that ALL reports filed are either printed or typewritten.
- (e) Where a report is intended to show directly held securities being disposed of in such a manner that the position becomes "indirect", or vice versa, it is essential that both sides of the transaction are reported, e.g., if Mr. Jones wishes to transfer 100 directly owned shares in Company "A" to a wholly owned subsidiary named Company "B", as an indirect holding, it should be shown both as a sale by Mr. Jones and as a purchase by Company "B" under Item 6. We suggest that Item 8 be utilized to draw attention to these circumstances.

- (f) Paragraph 7 should always be completed; it will show a consolidation of ALL the securities held.
- (g) Reporters are reminded that "stock splits" constitute a change in their holdings and new acquisitions should be reported "in numbers of shares".
- (h) Where attachments are used to record detailed transactions these should be totalled and the totals carried forward to paragraph 6 on the Form 15.
- (i) When reporting indirect holdings always refer to the companies involved by full name; one should not use such identification as Company "A", etc.
- (j) Reporters are reminded that Purchase Warrants, Put, Call or other transferable options are considered equity securities of a corporation and must be reported. O. Reg. 14/75, s. 2.

- 2. The said Regulation is further amended by adding thereto the following Schedule:

Schedule 1

RÉGIME DE CRÉDITS D'IMPÔT DE L'ONTARIO

Règles et indications générales

Crédit d'impôt foncier

- Le crédit d'impôt foncier de l'Ontario peut être demandé par tous les particuliers qui étaient résidents de l'Ontario le 31 décembre 1974, *sauf*
 - a) les personnes âgées de moins de 16 ans à la fin de 1974, et
 - b) les personnes âgées de moins de 21 ans à la fin de 1974 qui habitent à la maison et sont comptées comme personnes à charge.
- Le crédit d'impôt foncier doit être demandé par le conjoint ayant le revenu imposable le plus élevé.
- Pour déterminer le coût d'habitation, vous ne devez compter que l'impôt foncier ou le loyer de votre *résidence principale*. Vous ne pouvez faire entrer dans le coût d'habitation l'impôt foncier ni le loyer d'une deuxième résidence ou d'un chalet.

Crédit de taxe de vente

- Toute personne résident en Ontario le 31 décembre 1974 peut demander le crédit de taxe de vente de l'Ontario, *sauf*
 - a) les personnes âgées de moins de 16 ans à la fin de 1974, et
 - b) les personnes comptées comme personnes à charge aux fins de l'impôt sur le revenu par tout autre résident de l'Ontario.

Crédit d'impôt aux pensionnés

- Toute personne qui était âgée de 65 ans ou plus à la fin de 1974 et qui résidait en Ontario le 31 décembre 1974 peut demander le crédit d'impôt aux pensionnés de l'Ontario, *sauf* que, dans le cas où le mari et la femme étaient âgés tous deux de 65 ans ou plus à la fin de ladite année et habitaient la même résidence principale, seul le conjoint ayant le revenu imposable le plus élevé peut demander ce crédit.
- Lorsque les deux conjoints sont âgés de 65 ans ou plus et qu'aucun n'a un revenu imposable, le crédit d'impôt aux pensionnés doit être demandé par le conjoint qui demande le crédit d'impôt foncier, mais si aucun n'a demandé le crédit d'impôt foncier, le crédit d'impôt aux pensionnés peut être demandé par l'un ou par l'autre, mais non par les deux.
- Lorsqu'un seul des conjoints est âgé de 65 ans ou plus, c'est ce conjoint qui peut demander le crédit.

Résidence principale

La «résidence principale» désigne le logement que l'on a habituellement occupé ou habité pendant l'année d'imposition. Elle comprend une résidence temporaire, par exemple une chambre d'hôtel que le particulier a occupée de façon continue pendant la totalité ou une partie de l'année, et comprend également un logement mobile, comme une roulotte, lui ayant servi de résidence principale. Dans le cas d'une personne qui déménage, la résidence principale comprend tous les logements (ou les adresses en Ontario) qu'elle a occupés ou habités pendant l'année d'imposition.

On doit faire un calcul proportionnel du montant annuel des impôts fonciers ou du loyer afin de ne compter que la période pendant laquelle un logement a servi de résidence principale.

Coût d'habitation

Par «coût d'habitation», il faut entendre

- a) la totalité de l'impôt foncier versé à l'égard de la résidence principale pour l'année d'imposition, ou
- b) 20% du loyer total (à l'exclusion de tout montant payé pour les repas ou la pension) versé à l'égard de la résidence principale pour l'année d'imposition.

Conjoint ayant le revenu imposable le plus élevé

Lorsque les conjoints habitent la même résidence principale, le crédit d'impôt foncier et (ou) le crédit d'impôt aux pensionnés de l'Ontario doivent être demandés par le conjoint ayant le revenu imposable le plus élevé, quel que soit celui qui détient le titre de propriété de la résidence principale.

Cas particuliers

Personnes qui poursuivent des études de niveau post-secondaire

Lorsque la résidence principale d'un particulier qui poursuit à plein temps des études de niveau post-secondaire se trouve dans un logement (prescrit par les Règlements) tenu par une université ou un collège de l'Ontario, le coût d'habitation à l'égard de cette résidence est limité à \$25.

Autres particuliers

Les particuliers suivants sont aussi admis à demander le crédit d'impôt foncier de l'Ontario:

- a) les usufruitiers viagers, et
- b) les particuliers qui sont décédés au cours de l'année et au nom desquels on produit une déclaration d'impôt sur le revenu.

Diplomates et militaires étrangers

Les diplomates, les représentants de gouvernements étrangers et les militaires étrangers non tenus de produire une déclaration canadienne d'impôt sur le revenu n'ont pas droit aux crédits d'impôt de l'Ontario.

N.B. Les crédits d'impôt de l'Ontario pour 1974 sont administrés dans le cadre du régime d'impôt sur le revenu.

Après le calcul des crédits auxquels vous avez droit, reportez-en le montant à la ligne 63 en page 1 de votre déclaration d'impôt sur le revenu.

O. Reg. 126/75, s. 1.

2. For the purposes of this Regulation,

(a) an iron ore pelletizing plant, a direct-reduction or sponge iron plant or a multiple product iron plant that produces a product, other than concentrate,

(i) with more than 60 per cent iron content but less than 90 per cent iron content, is a smelter, and,

(d) a processing plant that crushes, grinds, screens, mills, calcines, dries or otherwise processes any non-metallic mineral from a mine, is a concentrator. O. Reg. 126/75, s. 2.

3.—(1) For the purpose of disaggregation under subsection 2a of section 3 of the Act, an open pit mine or an underground mine may be deemed to be a mine brought into active operation for the first time after the 9th day of April, 1974 in any of the following instances:

i. A mine project involving an investment at an existing mining operation that is designed to increase the rate of ore production from the mining operation by at least 30 per cent over the previous annual output high since 1968 for each expanded mine.

ii. A mine project involving an investment of at least 25 per cent of the cost of the depreciable mining assets of the mine immediately before the commencement of the mine project.

iii. A mine inactive on the 9th day of April, 1974 that is reopened, or that, if closed down after that date, remains closed down for a continuous period of five years before reopening.

iv. Any other major mining investment that, in the opinion of the Lieutenant Governor in Council, warrants disaggregation.

(2) The date of commencement of the active operation and production of mineral substances from a working or excavation of the ground for the taking or extracting of mineral substances brought into active operation and production for the first time after the 9th day of April, 1974 shall be determined by the mine assessor.

(3) Upon receipt of satisfactory information in the form of a statutory declaration by the operator, the mine assessor shall make an advance ruling on qualification for disaggregation. O. Reg. 126/75, s. 3.

4.—(1) In appraising the value of mineral substances at the pit's mouth under clause c of subsection 3 of section 3 of the Act, the mine

assessor shall determine the total amount of gross receipts from the output of the mine for the taxation year and deduct therefrom,

- (a) except as allowed under subsection 2, the cost of transportation of the mineral product from the mine to the geographical point of transfer of title to the product to the customer and of packaging and marketing the product to the extent that such transportation, packaging or marketing costs have been paid or borne by the operator;
- (b) the cost of processing in Canada the output of the mine to the grade, sizing and form in which the product was sold or for which the market value of the product is determined under subsection 2, provided that such expenditures have not at any time in a previous taxation year been allowed as an expense or deduction under the Act or this Regulation;
- (c) the office, administrative and general expenses of the operator attributable to the processing in Canada of the ore or mineral output;
- (d) the expenses incurred in respect of scientific research conducted in Canada and related to processing in Ontario of the ore or mineral output;
- (e) an allowance for depreciation in each taxation year, on a straight line basis, of not less than 5 per cent and not more than 15 per cent of the original capital cost as constructed of the processing assets and assets for transportation of the finished product to market from the point at which processing is completed situate in Canada until the full cost thereof has been written off, computed at the close of the taxation year; and
- (f) a processing allowance calculated in accordance with section 5,

and the difference is the appraised value of the output of mineral substances at the pit's mouth.

(2) Where the operator or the person liable to pay the tax so elects, the product of an iron ore mine shall be deemed to have been sold when fed into a processing plant, and the gross receipts shall be determined on the basis of the lower Great Lakes ports price, as established in the trade press, less transportation costs from the mine, to the extent that such price is representative of actual sales of iron product.

(3) Subject to subsection 2, where the mineral substances are not sold at arm's length, the mine assessor may take into consideration the fair

market value in appraising the value of the mineral substances at the pit's mouth.

(4) Where the processing assets or any part thereof have been disposed of at arm's length by the operator, the proceeds from such disposal, not exceeding the original cost, shall be applied to reduce the cost to such person of any additions thereto made in the taxation year, and where such proceeds exceed the cost of such additions, the excess shall be applied to reduce the balance remaining to be depreciated of such assets acquired in previous years, and where no such balance remains to be depreciated, the excess shall be applied to reduce deductions otherwise allowable under the Act and this section and where any such disposal is made at any time after the close of processing operations, the tax for the previous taxation year shall be reassessed for the purpose of depreciation recovery where applicable, when the total proceeds from such assets are realized.

(5) For the purposes of subsections 3 and 4, the rules determining "at arm's length" in subsections 3 to 8 of section 1 of *The Corporations Tax Act, 1972* shall be deemed to apply *mutatis mutandis*.

(6) Where 80 per cent or more of the value of the input to a processing plant or plants located in Ontario is from ores mined in Ontario, or outside Canada, the operator or person liable to pay the tax who owns and operates the processing plant or plants may be entitled, in appraising the value of mineral substances at the pit's mouth, to the allowances and costs permitted by clauses *a* to *e* of subsection 1 and section 5.

(7) Where less than 80 per cent of the value of the input to a processing plant or plants located in Ontario is from ores mined in Ontario, or outside Canada, the operator or person liable to pay the tax who owns and operates the processing plant or plants may be entitled, in appraising the value of mineral substances at the pit's mouth, to allowances and costs permitted by clauses *a* to *e* of subsection 1 and section 5 in the proportion to the value that the input of ores mined in Ontario or outside Canada bears to the value of the input of ores to the processing plant or plants.

(8) Where the processing plant is located in Canada outside Ontario, the allowances and costs permitted under clauses *a* to *e* of subsection 1 and section 5 shall be reduced by the portion that the value of the input of custom processed ores mined in Ontario and ores mined outside Ontario, whether company owned or custom processed, bears to the value of the total input to the processing plant. O. Reg. 126/75, s. 4.

5.—(1) The processing allowance under clause *f* of subsection 1 of section 4 shall be determined as follows:

- i. Where the operator or person liable to pay the tax owns and operates a concentrator

or concentrators situate in Canada but does not operate a smelter or refinery, the processing allowance shall be calculated at 8 per cent of the capital cost to the operator as constructed of the processing assets.

- ii. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators and a smelter or smelters situate in Canada but does not operate a refinery in Canada, the processing allowance shall be calculated at 16 per cent of the capital cost to the operator as constructed of the processing assets.
- iii. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators, a smelter or smelters and a refinery or refineries situate in Canada, the processing allowance shall be calculated at the rate of 20 per cent of the capital cost to the operator as constructed of the processing assets.
- iv. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators, a smelter or smelters and a refinery or refineries situate in Northern Ontario, the processing allowance shall be calculated at the rate of 30 per cent of the capital cost to the operator as constructed of the processing assets, provided that the processing allowance under this paragraph shall not be in addition to the processing allowance under paragraph iii.
- v. Where the operator or person liable to pay the tax owns and operates a concentrator or concentrators, a smelter or smelters, a refinery or refineries and a semi-fabricating plant or plants situate in Northern Ontario, provided that a significant proportion of the input to a semi-fabricating plant originates from a mine situate in Ontario owned by and operated by the person liable to pay the tax, the processing allowance shall be calculated at 35 per cent of the capital cost to the operator as constructed of the processing assets, provided that the processing allowance for a concentrator, smelter or refinery under this paragraph shall not be in addition to the processing allowance under paragraph iii.

(2) Where at any stage prior to the final stage of processing in Canada undertaken by the operator or person liable to pay the tax, a portion of the output of a processing plant located in Canada leaves a stage of processing without proceeding to the next stage of processing in Canada, the processing allowance at each stage shall be reduced by the proportion that the value of the output

that has left a stage of processing bears to the total value of the output of the processing plant at that stage.

(3) The processing allowance shall apply to processing assets as constructed only to the extent that they remain in use after construction, provided that where processing assets are not fully completed within eight years from the date of commencement of construction, the processing allowance shall be suspended for those processing assets.

(4) Where the processing allowance is claimed on assets as constructed but not in use the taxpayer shall support such claim by furnishing the mine assessor with a progress report showing work done and moneys expended on the asset during the taxation year.

(5) The processing allowance calculated under this section shall be not less than 15 per cent nor more than 65 per cent of the combined profit.

(6) Notwithstanding the provisions of subsection 5, the Lieutenant Governor in Council may increase the 65 per cent rate referred to in subsection 5 where a semi-fabricating plant is constructed in Northern Ontario. O. Reg. 126/75, s. 5.

6.—(1) Subject to subsection 3, the return required by section 6 of the Act shall be in the Form provided by the mine assessor.

(2) Subject to subsection 3, where a mine is entitled to disaggregation under subsection 2a of section 3 of the Act, the profit shall be apportioned amongst all mines operated by the same person or associated persons in proportion to the value of the recoverable mineral content of ore mined during the taxation year, but the mine assessor may use any other method that is appropriate.

(3) The return provided for under subsection 1 shall contain a separate part for computation of the profit of the mine in the case of an iron ore mine governed by subsection 2 of section 4.

(4) A Form provided by the mine assessor shall be completed in full and shall accompany the remittance of the estimated tax required by subsection 1 of section 2 of the Act. O. Reg. 126/75, s. 6.

7. The rate of interest payable under,

(a) subsection 1 of section 15 of the Act is 12 per cent per annum; and

(b) subsection 3 of section 15 of the Act,

(i) where the amount of tax paid is more than the amount shown on the notice of assessment issued under subsection 1 of section 7 of the Act, is 5 per cent per annum, and

- (ii) where the amount of tax paid is more than the amount finally determined when an appeal is taken under section 8 of the Act, is 8 per cent per annum. O. Reg. 126/75, s. 7.

8. This Regulation shall be deemed to have come into force on the 10th day of April, 1974. O. Reg. 126/75, s. 8.

9. Ontario Regulation 492/71 is revoked. O. Reg. 126/75, s. 9.

- (iii) an appraisal of each parcel of real estate shall be made by a qualified appraiser at least once a year and may include an updating of previous appraisals,
- (iv) a monthly market value at dates for which an appraisal is not available shall be determined by the insurer on the basis of the price which the real estate would bring if offered for sale on the open market after allowing a reasonable time to find a willing purchaser buying with knowledge of the use to which the property may be put to reflect changes in real estate prices, construction costs and other economic factors affecting the value of the real estate,
- (v) all appraisals in any one year shall be arranged so that the valuations of the market value of individual parcels of real estate are made at regular intervals over the year,
- (vi) in the event of a material change in the condition of any real estate held in the fund that may affect the market value of the fund, the insurer shall immediately cause an independent appraisal of such real estate to be made and adjust the valuation of the real estate at the next monthly valuation after the appraisal is made.

3. Subject to sections 4 and 5 and section 6 of the Act, the amount of a grant payable under section 6 of the Act shall be equal to the cost of the building project approved by the Minister. O. Reg. 236/75, s. 3.

4. Notwithstanding section 6 of the Act, where the Minister is of the opinion that the financial resources available to a municipality, after payment to the municipality of the maximum amount of the capital grant prescribed under that section would be insufficient to pay for a building project or for the municipality's share of a building project under an agreement for the joint establishment of the community recreation centre, as the case may be, without placing an undue financial burden on the municipality, the maximum amount of the grant that may be paid shall not exceed the lesser of \$150,000 or 50 per cent of the cost of the building project or of the value of the municipality's contribution, as the case may be. O. Reg. 236/75, s. 4.

5. Notwithstanding section 6 of the Act, where special facilities approved by the Minister for handicapped persons that are not required under *The Building Code Act, 1974* are provided in a community recreation centre, the amount of the grant payable under subsection 1 or 2 of section 6 of the Act for the community recreation centre may exceed the lesser of \$75,000 or 25 per cent of the cost of the building project, or of the value of the contribution of the applicant to the building project, as the case may be, by an amount equal to the cost, approved by the Minister, of the special facilities. O. Reg. 236/75, s. 5.

6.—(1) Before commencing a building project or at such other time before payment of the grant as the Minister may approve, an applicant shall file with the Minister,

- (a) plans and specifications prepared by an architect or professional engineer or, where the Minister approves, a sketch drawn to scale, of the community recreation centre showing,
 - (i) the size and location of the site, and
 - (ii) the location on the site, the size and any interior partitions and use or any intended use of all or any part of one or more buildings, structures, facilities and areas; and
- (b) evidence satisfactory to the Minister that the applicant is solely, or jointly with one or more other persons or organizations,
 - (i) the owner or lessee of, or
 - (ii) pursuant to an agreement in writing, otherwise legally entitled to use,

the property comprising the community recreation centre for a fixed and continuous period of time that, in the opinion of the Minister, justifies payment of the grant.

(2) Where the plans and specifications or sketch, as the case may be, show that any part of a building project is used or will be used for a purpose not included in section 2, the Minister may require the applicant to furnish further particulars about the use or proposed use including the extent of the use and the name of any organization or persons engaging or proposed to engage in the use. O. Reg. 236/75, s. 6.

7.—(1) An application for payment of a capital grant shall be made to the Minister in a form prescribed by the Minister within three years after the expenditure by the applicant of the amount or amounts applied for.

(2) An applicant shall file with the Minister, together with his application for a grant,

- (a) a statement in a form prescribed by the Minister showing,
 - (i) the actual or estimated cost of the building project,

- (c) where the applicant is an approved corporation, a board or a band, a copy of the by-law or resolution providing for the establishment of the community recreation centre.

(3) The Minister may require an applicant who files a statement under clause a of subsection 2 to furnish such further particulars as the Minister deems necessary to establish the actual cost of the building project and may require a valuation of the building project to be made by an appraiser with qualifications acceptable to the Minister. O. Reg. 236/75, s. 7.

8. Where a municipality, board, band or approved corporation changes the site or use of, or structurally alters, sells, leases, mortgages or otherwise disposes of an interest in a community recreation centre for which payment of a capital grant has been made, without the approval in writing of the Minister, or where such approval has been given, is in default of any condition for repayment imposed under section 10 of the Act, the whole or any part of the grant may be recovered as a debt due to the Crown in right of Ontario from the municipality, board, band or approved corporation, as the case may be,

- (a) out of moneys payable by Ontario to the municipality, board, band or approved corporation, under the authority of any Act; or
- (b) by proceedings in any court of competent jurisdiction. O. Reg. 236/75, s. 8.

9.—(1) A capital grant under the Act for the construction of all or any part of one or more new buildings or structures, or for an extension, alteration or renovation to one or more buildings or structures may be payable in amounts of the estimated total grant to be determined by the Minister at such times as the Minister may approve, but not exceeding 75 per cent of the estimated total grant, and an application for any such amount shall be accompanied by a certificate of an architect or professional engineer stating the progress made towards completion of the construction, extension, alteration or renovation, as the case may be.

(2) The total payment of a capital grant for a building project shall not be made until,

- (a) an architect or professional engineer certifies that,
 - (i) the building project has been completed in accordance with the plans and specifications or sketch, as the case may be, thereof submitted to the Minister under subsection 1 of section 6, and
 - (ii) the building project is ready to be used as a community recreation centre; and
- (b) the applicant for the grant submits a report stating,
 - (i) the actual cost of the building project,
 - (ii) that the total of the unpaid accounts applicable to the building project does not exceed the amount of the grant remaining to be paid,

(iii) that the amount of the grant remaining to be paid will be applied first to the payment of the unpaid accounts referred to in subclause ii, and

(iv) that all refundable sales tax has been taken into account. O. Reg. 236/75, s. 9.

10. Regulation 93 of Revised Regulations of Ontario, 1970 and Ontario Regulation 380/72 are revoked. O. Reg. 236/75, s. 10.

NOTE

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-gray-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracycline drugs, therefore, should not be used in this age group unless other drugs are not likely to be effective or are contraindicated.

8. Form 2 of the said Regulation, as amended by section 9 of Ontario Regulation 115/73, section 2 of Ontario Regulation 259/73 and section 10 of Ontario Regulation 396/74, is revoked and the following substituted therefor:

Form 2

The Crop Insurance Act (Ontario)

CORN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for corn under The Ontario Crop Insurance Plan for Corn, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover corn.

HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to corn shall be harvested as corn silage or grain corn unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose;
- (b) the abandonment or destruction of the insured crop or any part thereof; or
- (c) the harvest of any insured acreage prior to the 5th day of September in any crop year.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

VARIETIES OF CORN

2. Except as otherwise determined by the Commission, acreage may be seeded to any licensed variety of corn offered for sale in Ontario.

EVALUATION OF LOSS

3.—(1) Where,

- (a) the insured person so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and
- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium deposit in respect of such acreage shall be refunded.

(4) Where the insured person seeds or plants a crop which is listed in the Table and fails to insure the crop, the premium deposit in respect of acreage so planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

(a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;

(b) that is untilled and was not cropped in the previous year; or

(c) that, in the opinion of the Commission, is not insurable.

4.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to corn, the contract of insurance shall continue to apply to such reseeded acreage.

5.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price.

FINAL ADJUSTMENT OF LOSS FOR TOTAL INSURED ACREAGE

6. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 3, 4 and 5 applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 15 shall be reduced by the amount obtained by multiplying such excess by the established price.

7. Notwithstanding paragraph 6, where at any time after the 15th day of June, two acres or more of the insured acreage is totally destroyed by hail or tornado, the Commission, upon application therefor in writing by the insured person, may consent in writing to the release from the contract of insurance of the acreage so destroyed and, in such case, the amount of loss shall be calculated by multiplying the guaranteed production for the released acreage by the established price.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

8.—(1) Where the actual seeded acreage of corn in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of corn in a crop year exceeds the seeded acreage declared on the final acreage report, the total guaranteed production per acre shall remain unchanged.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

O. Reg. 345/75, s. 7.

8. Form 2 of the said Regulation is revoked and the following substituted therefor:

Form 2

The Crop Insurance Act (Ontario)

SOYBEAN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for soybeans under The Ontario Crop Insurance Plan for Soybeans, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder.

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover soybeans.

HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to soybeans in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

EVALUATION OF LOSS

2.—(1) Where,

- (a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and
- (b) the seeding or planting of three acres or more or a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium deposit in respect of such acreage shall be refunded.

(4) Where the insured person seeds or plants a crop which is listed in the Table and fails to insure the crop, the premium deposit in respect of acreage so planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
- (b) that is untilled and was not cropped in the previous year; or
- (c) that, in the opinion of the Commission, is not insurable.

3.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to soybeans, the contract of insurance shall continue to apply to such reseeded acreage.

4.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per bushel.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel.

FINAL ADJUSTMENT OF LOSS FOR TOTAL INSURED ACREAGE

5. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 2, 3 and 4 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 4 shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

6. Notwithstanding paragraph 5, where at any time after the 20th day of June, two acres or more of the insured acreage is totally destroyed by hail or tornado, the Commission, upon application therefor in writing by the insured person, may consent in writing to the release from the contract of insurance of the acreage so destroyed and, in such case, the amount of loss shall be calculated by multiplying the guaranteed production for the released acreage by the established price per bushel.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

7.—(1) Where the actual seeded acreage of soybeans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of soybeans in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

O. Reg. 346/75, s. 9.

10. Form 2 of the said Regulation is revoked and the following substituted therefor:

Form 2

The Crop Insurance Act (Ontario)

WHITE BEAN ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for white beans under The Ontario Crop Insurance Plan for White Beans, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover white beans.

HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to white beans in a crop year shall be harvested as white beans unless the Commission, upon application therefor in writing, consents in writing to,

(a) the use of the seeded acreage or any part thereof for another purpose; or

(b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

EVALUATION OF LOSS

2.—(1) Where,

(a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and

(b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium deposit in respect of such acreage shall be refunded.

(4) Where the insured person seeds or plants a crop which is listed in the Table and fails to insure the crop, the premium deposit in respect of acreage so planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
- (b) that is untilled and was not cropped in the previous year; or
- (c) that, in the opinion of the Commission, is not insurable.

3.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to white beans, the contract of insurance shall continue to apply to such reseeded acreage.

4.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS FOR TOTAL INSURED ACREAGE

5. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 2, 3 and 4 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 4 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

6. Notwithstanding paragraph 5, where at any time after the 30th day of June, two acres or more of the insured acreage is totally destroyed by hail or tornado, the Commission, upon application therefor in writing by the insured person, may consent in writing to the release from the contract of insurance of the acreage so destroyed and, in such case, the amount of loss shall be calculated by multiplying the guaranteed production for the released acreage by the established price per pound.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

7.—(1) Where the actual seeded acreage of white beans in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of white beans in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

(2) Paragraph 2 of the said Form 1 is revoked.

(3) Paragraph 3 of the said Form 1, as remade by subsection 1 of section 8 of Ontario Regulation 360/74, is revoked.

(4) The heading preceding paragraph 3a of the said Form 1, as made by subsection 2 of section 8 of Ontario Regulation 360/74, is revoked and the following substituted therefor:

EVALUATION OF LOSS

(5) Subparagraph 1 of the said paragraph 3a is revoked and the following substituted therefor:

(1) Where,

(a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and

- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

- (6) Clause *b* of subparagraph 6 of the said paragraph 3*a* is revoked and the following substituted therefor:

(b) that is untilled and was not cropped in the previous year; or

(c) that, in the opinion of the Commission, is not insurable.

4.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to coloured beans, the contract of insurance shall continue to apply to such reseeded acreage.

- (8) The heading preceding paragraph 5 of the said Form 1 and the said paragraph 5, as amended by subsections 4 and 5 of section 8 of Ontario Regulation 360/74, are revoked and the following substituted therefor:

5.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where the damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with sub-

paragraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

- (9) The heading preceding paragraph 7 of the said Form 1 and the said paragraph 7, as remade by subsection 7 of section 8 of Ontario Regulation 360/74, are revoked and the following substituted therefor:

FINAL ADJUSTMENT OF LOSS FOR TOTAL INSURED ACREAGE

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 5 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

O. Reg. 348/75, s. 9.

10. Form 2 of the said Regulation is revoked and the following substituted therefor:

Form 2*The Crop Insurance Act (Ontario)***SPRING GRAIN ENDORSEMENT**

WHEREAS the insured person has applied for crop insurance for spring grain under The Ontario Crop Insurance Plan for Spring Grain, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover spring grain.

HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to spring grain in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

EVALUATION OF LOSS

2. For the purposes of determining the loss in production of spring grain in a crop year and the indemnity payable therefor, the actual production of all harvested acreage of oats, barley, spring wheat and mixed grain shall be combined, and in no case shall the production of oats, barley, spring wheat or mixed grain be taken into account separately.

3.—(1) Where,

- (a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and
- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium deposit in respect of such acreage shall be refunded.

(4) Where the insured person seeds or plants a crop which is not listed in the Table, and fails to insure the crop, the premium deposit in respect of acreage so planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
- (b) that is untilled and was not cropped in the previous year; or
- (c) that, in the opinion of the Commission, is not insurable.

4.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a supplementary benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to spring grain, the contract of insurance shall continue to apply to such reseeded acreage.

5.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential production for the damaged acreage determined under subparagraph 1 by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS FOR
TOTAL INSURED ACREAGE

6. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 3, 4 and 5 applicable to such acreage, but where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 5 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

INCORRECT ACREAGE IN FINAL ACREAGE
REPORT

7.—(1) Where the actual seeded acreage of spring grain in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of spring grain in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

NOTE

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-gray-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracycline drugs, therefore, should not be used in this age group unless other drugs are not likely to be effective or are contraindicated.

Section 7.02

The Trust Plan is established to stand in the place and stead of a Participant for the payment out of the Trust Fund of such claims of clients of the Participant that the Participant has refused, after demand or is unable to pay, and arising after the effective date of this Agreement, which claims meet the requirements set forth herein, as follows:

- (a) Any client who has made payment for travel services to a Participant in Ontario and who has not received the travel services contracted for, shall be entitled to claim for the refund of moneys so paid to the extent only that such services are not so provided and after he has made a demand for payment on a Participant which the Participant has refused without legal justification to pay or is unable to pay by reason of bankruptcy or insolvency.
- (b) No client shall have any claim for the refund of any money paid by him to a Participant where he was informed, prior to the making of his payment to the Participant, that the money paid by him was as a non-refundable deposit or a reasonable service charge.
- (c) The Board shall determine as to the legality and eligibility of any claim made by a client and shall direct the Trustee to pay any claim that meets the requirements of this agreement and the decision of the Board shall be final and conclusive for all purposes.
- (d) For greater certainty it is hereby agreed and declared that no client of any Participant shall have any vested or absolute right to payment of any claim against the Board, the Trustee or the Trust Fund.

Section 7.03

A claim for payment out of the Trust Fund may only be made by a claimant giving written notice of claim to the Trustee for transmittal to the Board with full particulars thereof and of any payment or recovery in respect thereof and the Trustee may require as a condition precedent to making payment of such claim or any part thereof, the delivery and execution of such documents as the Trustee in its discretion or upon the advice of its Counsel deems necessary and including such documents as are necessary for transferring to the Trustee the interest of the client in such claim so as to subrogate the Trustee to the position of the client against the Participant.

Section 7.04

Notwithstanding any of the foregoing provisions the following limitations in respect to the payment of claims shall apply.

- (a) The maximum aggregate amount of claims which shall be paid in respect of any one Participant shall not exceed the sum of \$300 multiplied by the number of Participants who are then subscribers to this agreement, or such greater or lesser amount as the Regulations prescribe.

- (c) The Trustee may in its discretion reserve against claims which it thinks may be validly made and any such reservations shall be the equivalent of payment of such claim for the purpose of an additional payment to the Trust Fund under Section 5.03.
- (d) The Trustee in its discretion may pay claims in respect of any one Participant in one or more instalments it sees fit.

Section 7.05

When it appears to the Director or the Board of Trustees that clients of a Participant have been placed in circumstances that immediate funds and facilities are necessary to alleviate the suffering and inconvenience of such clients the Board of Trustees with the concurrence of the Director, may direct the Trustee to pay out of the trust fund an amount sufficient for the repatriation of stranded passengers and necessary accommodation of such passengers until such repatriation can be effected. The amount of such payment on behalf of a Participant shall be an additional payment due to the Trustee by such Participant and the Trustee shall demand payment from the Participant forthwith upon the advancing of funds under this section and for the purposes of this agreement shall be deemed to be a claim or claims for payment properly made under the provisions of Section 5.04 of this agreement.

receiving the written direction of the Registrar the Trustee shall forward notice in writing of such default to such Participant; in the event such default be not purged within 10 days from the date of such notice from the Trustee, such Participant shall be deemed to have been expelled from the Trust Fund and the Trust Plan; provided that no Participant may be expelled or deemed to be expelled from the Trust Fund and the Trust Plan pursuant to the provisions of this Section where the default of such Participant is due to the insolvency, bankruptcy or voluntary or compulsory winding-up of such Participant.

Section 8.03

Section 8.05

Subject to all rights and obligations pursuant to the provisions of Article VII hereof, upon the expiration of two years notice given pursuant to Section 8.01 and with the approval of the Board and the Registrar such Participant shall cease to be a Participant, his participation in the Trust Fund and Trust Plan shall cease and he shall no longer be subject to the Plan or to any further obligation under this Agreement.

(2) Where three acres or more of the insured crop is lost or damaged in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

- (a) the replanting of the damaged acreage provided that the replanting is completed not later than the 15th day of June; or
- (b) the abandonment or destruction of the insured crop on such damaged acreage and in such case the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is replanted to potatoes in accordance with clause *a* of subparagraph 2, the Commission shall pay an indemnity of \$100 for each acre replanted and the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is replanted to another crop, the Commission shall pay an indemnity of \$100 per acre and the contract of insurance shall terminate with respect to such acreage.

(5) Where the damaged acreage is destroyed or abandoned in accordance with clause *b* of subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying,

- (a) 50 per cent of the guaranteed production for the damaged acreage; or

- (b) the difference between the guaranteed production and the potential production determined under subparagraph 2 for the damaged acreage,

whichever is the lesser by the established price per hundredweight.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

(7) Any indemnities payable under this paragraph are subject to the following conditions:

1. For the first year in which the contract is in force, 5 per cent of the insured acreage shall be deductible.
2. Following the first and each successive no claim year, the deductible acreage shall be decreased by 1 per cent.
3. Following the first or any subsequent claim year, the deductible shall revert immediately to the maximum of 5 per cent of the insured acreage.

STAGE 2

3.—(1) Stage 2 commences on the 16th day of June and for any part of the planted acreage ends with the completion of harvesting of such part.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where,

- (a) damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 2; or
- (b) the harvesting of any planted acreage is not completed on the date determined therefor.

the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production

for the damaged or unharvested acreage, as the case may be, exceeds the potential production determined therefor by the price per hundredweight.

(4) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 3 shall not be taken into account in the final adjustment of loss.

(5) Where the actual production of the acreage harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per hundredweight.

FINAL ADJUSTMENT OF LOSS FOR TOTAL PLANTED ACREAGE

4.—(1) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Stage 1 and Stage 2 loss calculations applicable to such acreage, but, subject to subparagraph 2, where,

(a) the actual production of any harvested acreage; or

(b) the potential production of,

(i) any unharvested acreage, and

(ii) any acreage dug before the earliest date for harvesting prescribed by the plan,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per hundredweight.

(2) No more than one indemnity payment with respect to the same planted acreage shall be paid in any one of the Stages.

(3) Where a loss resulted partly from a peril insured against and partly from a cause of loss not insured against, the Commission shall determine the amount of the loss not insured against, and the indemnity payable by the Commission under the contract shall be reduced accordingly.

DAMAGE AFTER HARVEST

5.—(1) No indemnity shall be paid in respect of any loss or damage suffered by the insured crop after harvest and, subject to subparagraph 2, no indemnity shall be paid with respect to potatoes in storage.

(2) Where, as a result of frost damage prior to harvest, the insured crop or any part thereof breaks down in storage, the Commission shall pay an indemnity therefor provided,

(a) notice of frost damage was received by the Commission prior to harvest; and

(b) the damaged potatoes are clearly identified in storage to the satisfaction of the Commission.

MEASUREMENT OF YIELD

6. The Commission may measure the yield of the insured crop either before or after harvest by such means as it deems proper.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

7.—(1) Where the actual planted acreage of potatoes in a crop year is less than the planted acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual planted acreage of potatoes in a crop year exceeds the planted acreage declared on the final acreage report, the guaranteed production shall be reduced proportionately.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

EVALUATION OF LOSS

3 For the purpose of determining the loss in production of flue-cured tobacco in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in Sections A and B.

SECTION A

STAGE 1

4.—(1) Stage 1 comprises the period from the commencement of planting or noon of the 20th day of May, whichever is the later, to noon of the 20th day of June in the crop year.

(2) Where loss or damage occurs in Stage 1, the Commission upon application therefor in writing by the insured person may consent in writing to

the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(3) Where the damaged acreage is replanted to the insured crop pursuant to Section B, the contract of insurance shall continue to apply to such replanted acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with subparagraph 2, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying 50 per cent of the guaranteed production for the damaged acreage by the established price per pound.

(5) Where the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 4 shall not be taken into account in the final adjustment of loss.

(6) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and to calculate the amount of loss in the manner prescribed in subparagraph 4 with respect to such damaged acreage and, where notice of such intention has been given, the Commission shall calculate accordingly the amount of loss to be taken into account in the final adjustment of loss and the value of the insured crop on such damaged acreage shall not progress beyond Stage 1.

(5) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

SECTION B

FINAL ADJUSTMENT OF LOSS FOR
TOTAL PLANTED ACREAGE

9. The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Section A and Section B loss calculations applicable to such acreage, but where,
